

ADITYA KUMAR

Data Scientist

Bengaluru, India | +91 6202393823 | aditya0211kuar@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Data Scientist with 2+ years of experience turning enterprise data into production ML, statistical, and GenAI-driven analytics solutions. Delivered production forecasting systems on AWS Lambda, cut manual effort by 40+ hours/week through automated data-quality pipelines, and built segmentation models that lifted targeting efficiency by 20%. Skilled in feature engineering, hypothesis-driven experimentation, and rigorous model evaluation (MAPE), with a strong foundation in Python, SQL, R, Scikit-learn, TensorFlow, and LLM-based analytics agents.

CORE TECHNICAL SKILLS

Languages: Python, SQL, R, Java, C++

Data Science & ML: Machine Learning, Time-Series Forecasting, Statistical Modeling, Feature Engineering, Experimentation, Model Selection & Evaluation, NLP, Scikit-learn, TensorFlow

GenAI: LLMs, Retrieval-Augmented Generation (RAG), Agentic AI, Prompt Orchestration, Insight Generation

Data Engineering: PostgreSQL, Oracle DB, ETL, Data Preprocessing & Validation, Data Analytics, Dirichlet-Multinomial (DirMult) Modeling, Hierarchical Clustering, MAPE

MLOps & Cloud: CI/CD, Pipeline Automation, Model Deployment & Monitoring, AWS Lambda, EC2, Docker, OCI, IoT Core

PROFESSIONAL EXPERIENCE

Genpact — Data Scientist, Bengaluru, India

Aug 2024 – Present

- **Enterprise Analytics & Forecasting:** Built end-to-end Python analytics and ML pipelines — PostgreSQL extraction, attribute/time/geography filtering, feature engineering, and MAPE-based evaluation — powering production forecasting on AWS Lambda.
- **GenAI Forecasting Framework:** Engineered a reusable GenAI + time-series framework that layers automated insight generation on top of statistical forecasts, boosting stakeholder interpretability.
- **Analytical Modeling & Automation:** Built CDT-tree workflows using Dirichlet-Multinomial (DirMult) modeling, switching constants, hierarchical clustering, and client-specific recoding logic; automated preprocessing, validation, and pre-QC checks in Python/R, saving ~40 hours/week.
- **Business ML Impact:** Built Scikit-learn customer segmentation and behavioral-analysis models that lifted targeting efficiency by 20%, with model benchmarking and selection automated via CI/CD pipelines.
- **Experimentation Rigor:** Designed controlled experiments and statistical comparisons across candidate models to drive reproducible, defensible model-selection decisions for enterprise clients.

Genpact — Data Analyst Intern, Bengaluru, India

Jan 2024 – Jun 2024

- Optimized complex SQL queries on Oracle DB, cutting dashboard data-fetch latency by 45%.
- Built KPI dashboards in Power BI and Tableau to support business reporting and data-driven decision-making.

PROJECTS

- **LLM-Based Analytics Agent (Internal POC):** Built a goal-driven Python LLM agent for dataset analysis and insight generation, applying tool usage, memory-based context handling, and Agentic AI/RAG design patterns.
- **RoboWeed – IoT Agricultural Rover:** Built a Raspberry Pi + YOLOv8 computer-vision system for real-time weed detection and automated spraying with Python, Roboflow, and IoT sensors; achieved 90% detection accuracy.
- **BuyMe – E-Commerce Web Platform:** Built a Django/JavaScript/SQLite e-commerce platform with authentication, order management, REST APIs, and MVC architecture, including the underlying data model and analytics.

EDUCATION

RV Institute of Technology and Management — B.E., Computer Science

2020 – 2024

GPA: 8.04 / 10

CERTIFICATIONS

- Lean Six Sigma Green Belt — Genpact
- Machine Learning, Data Science and Generative AI with Python — Udemy
- Natural Language Processing with Python — Udemy
- Oracle Cloud Infrastructure (OCI) AI Foundations — Oracle University
- Python Data Structures — University of Michigan (Coursera)

ACHIEVEMENTS

- LeetCode Rating: 1835 (Top 6.3% globally); Qualified for Google Code Jam (Rank 71/100 in round)
- Co-Lead, Competitive Programming — Google Developer Student Clubs (DSC), RVITM
- 1st Place, CODE BATTLE and 2nd Place, CODM — Phoenix Robotics Club
